ACADEMIC PROJECTS

❖ AI supported AICTE approval process portal

Developed a web-based portal that automates and streamlines the AICTE approval process for educational institutions using AI-driven verification. The system assists universities in submitting, validating, and tracking approval documents efficiently through intelligent form processing, step-by-step guidance, and automated status updates.

❖ Task Management System

Implemented a full-stack task management web app featuring CRUD operations, deadline tracking, and user-specific dashboards for efficient project coordination.

ACHIEVEMENTS

- Scored 96.5 percentile in JEE(Main) 2023 in the first attempt.
